NEW ON-LINE SUBMISSION PROCESS FOR 2009

This year submissions for the 2009 Call for Presentations will only be accepted via an **On-Line Submission System**. Since the form must be filled in completely in order to be submitted, for ease in preparation we recommend that you go to the forms page you access from the Conference website at www.asdreams.org/2009/, and print it out. In this way you can prepare the main text of your proposal ahead of time using your word processing software, and then copy-and-paste it into the online form. Also you must prepare the Abstract and your Vita as separate MS Word documents and store them as files on your computer - the online Call form will have a place for you to attach and download them when you submit your form.

ALL applicants must use the on-line form. NO proposals will be accepted by e-mail. If you have questions please write to submissions@asdreams.org
