Dr. Klein is considered one of the most influential science writers in Europe. He studied physics and analytical philosophy in Munich, Grenoble and Freiburg and graduated in biophysics. His latest work is *Dreams*

Positions are filled at this point; however, the Wait List is open.

Volunteers attend the conference for \$100, performing roughly 14 conference hours of work. ## IASD 2018 PLEDGE DRIVE – THERE'S STILL TIME TO DONATE

If you intended to donate before the end of 2018 to IASD's annual Pledge Drive, there's still time to donate, even though it's January!

We hope you will take this opportunity to help finance special programs in IASD. Each year, our Pledge Drive extends from the end of November through the end of January in the next year so that members can take a look at year-end finances to determine what they can contribute.

**DONATE TODAY!** <http://www.asdreams.org/pledge2018/>

### GIVE THE GIFT OF DREAMS

There are so many ways you can give the gift of dreams to family and friends during IASD's 2018 Pledge Drive. We hope you will help, because today the world needs dreams and dreamers more than ever.

With your donation, you can help encourage:

- Dream Research with the Dream Science Foundation
- Student scholars with the Ernest Hartmann Awards
- Dream artists with the Nancy Richter Brzeski Art Awards
- Conference scholarships and other educational activities with the Rev. Jeremy Taylor Memorial Education Fund
- Or you may simply donate to IASD's General Operations funds.

Between November 2018 and the end of January 2019, we hope to raise over \$10,000 toward these efforts. Your contribution helps. Those who contribute will also be listed on IASD's Pledge Wall. IASD is a 501(c)3 US Nonprofit Organization. For those in the United States, donations are tax deductible.

Thanks for your loving generosity.

The goal of the project is to spread scientific knowledge about dreams for health, as an inexhaustible source of creative ideas, and dreams in Russian and world culture. This information will be interesting for professionals (scientists, doctors, psychologists, art historians) and for the general public. The speakers are leading scientists in the field of medicine, psychology, linguistics, art history and other areas.

The exhibition will feature works created from dreams (paintings, drawings, installations) by both professional artists and children.

Art shows, creative workshops, seminars (including webinars), a round table for dialogue with artists and specialists working with dreams, and a concert of musical works written from and about dreams, will all be featured at this exhibition-conference.
