The online course committee (OCC) offers online courses on various aspects of dreams and dreaming to those IASD members and nonmembers who would like to take these as part of an independent study program. The initial offerings are the foundation series courses titled *The Science and Psychology of Dreaming* and *The Science of Lucid Dreaming*. While these courses are offered as part of the IASD Dream Study Groups Program, the OCC is responding to requests to also offer them as stand-alone independent study courses, which should appeal to those who prefer to take courses on their own.

*The Science and Psychology of Dreaming* course is a mini-tutorial which covers:

- The Basics
- The Psychology
- Exceptional Dream Experiences

The course is taught by Robert Hoss, who chairs our research grant committee, and is co-editor of IASD's book *Dreams: Understanding the Biology, Psychology and Culture* from which much of the course is derived. It is designed for anyone interested in a summary of some of the theories and research findings related to our basic understanding of dreaming. Although there is much still being researched about the nature of dreaming, this course offers a snapshot of some of the general practices, recent research and theoretical thinking.

*The Science of Lucid Dreaming* course covers the history of the first scientific evidence that lucid dreaming is a valid and distinct state of dreaming, and then surveys cutting-edge findings in the field. The course is taught by Robert Waggoner, an internationally known lucid dream pioneer and author of *Lucid Dreaming*. It is based on his presentation at the 2018 IASD Conference in Scottsdale, Arizona.

To enroll in either or both of these courses, please click on <http://iasdreamcourses.org/mod/page/view.php?id=1358&inpopup=1>

### Regional News You Can Use

***Michelle Carr and Jeanne van Bronkhorst,  
Co-Chairs of the IASD Regional Events  
Committee***

Our next spotlight is on **the Regional Re-  
visioning in the UK and Republic of Ireland.**

Regional Groups really are “the seedlings of realities.” For instance, in the United Kingdom, Regional Roles have recently been restructured to include an IASD Representative from the four Nations: England, Northern Ireland, Scotland and Wales. Fiona Butler has taken on the Rep position for Northern Ireland and Josie Malinowski for England. If you'd like to be an IASD Rep for Scotland or Wales, please do contact Jeanne van Bronkhorst, Co-chair of the Regional Events Committee, at [vanjvb@gmail.com](mailto:vanjvb@gmail.com)

The Republic of Ireland had previously been included in IASD's UK Regional Group. However, since 2021, Mike Hackett has been forming the Republic's own Regional Group.

In April 2021, IASD members from all the nations met on Zoom to talk about our connection with dreams and IASD. Kathleen Crinion suggested having a Regional Meeting in Meath, Ireland post-pandemic. We hope this dream becomes reality!

As three IASD members in the UK published books on dreams during the 2020 lockdowns – Sue Llewellyn, Josie Malinowski, and myself – the Dream Research Institute (DRI) in London will host a **Book Launch** on November 19, 2021, 19:00 – 21:00 GMT. IASD members are welcome to join whether in person or via Zoom. We look forward to seeing you there and to IASD's membership increasing across the region!

Melinda Powell, IASD UK Regional Rep,

If you are looking for a way to be more involved in the life of IASD, becoming a Regional Rep is a good first step. Contact Jeanne at [vanjvb@gmail.com](mailto:vanjvb@gmail.com).

### NEW BOOK ON LUCID DREAMS

George Gillespie has a new book, *Seeing: Beyond Dreaming to Religious Experiences of Light* published by Imprint Academic.

© 2007 Foundation of the Works of C. G. Jung, Zürich.  
First appeared in the Red Book (W.W. Norton & Co.)

Announcing "I Feel Therefore I Am": Interdisciplinary Perspectives on Emotions and their Impact; a 3-day international and interdisciplinary conference to be held June 30 – July 2, 2023, at the C. G. Jung Institute near Zurich, Switzerland in celebration of the institute's 75th anniversary. We're very pleased that Dr. Pilleriin Sikka (Finland) will be joining us as one of our five keynote speakers. If you, like her, are involved in research related to emotions in therapy and/or dreams, please consider submitting a paper proposal with an abstract (ca. 300 words), a short biography that includes your clinical and/or academic background, professional affiliation(s), and a list of any recent publications.

Submissions should be in English and/or German and attached as a Word document in an email sent to 2023conference (at) junginstitut.ch

The submission deadline is February 28, 2022.

After years of lucid dreaming, Gillespie has a series of religious encounters with intense light which bring an awareness of the presence of God. He describes a number of encounters and then analyses them in terms of the visual imagery, the dreaming out of which the experiences of light arise, light as visual image and spiritual event, and the awareness of the presence of God.

An important part of the analysis is the explanation of how the internal visual image is constructed and experienced three-dimensionally. He finds that the visual image is itself the seeing of the image. His religious experiences are shown not to be themselves dreams, but to lie, in a sense, beyond dream imagery and dreaming.

The book is available from Amazon and other bookstores.

## hot off the press

In this issue Hot Off the Press focuses on dreams in the age of antiquity. This column publishes links to evidence-based scientific articles on dreams that are written for a non-research audience.

### **RARE GILGAMESH DREAM TABLET SCHEDULED FOR RETURN TO IRAQ, AFTER HOBBY LOBBY PURCHASED IT BY GABRIELA MIRANDA**

A rare and ancient tablet containing one of the world's oldest works of literature will finally be returned to Iraq.

In 2014, Hobby Lobby purchased the Gilgamesh Dream Tablet for over \$1.6 million. In July, the U.S. Justice Department said it should be in Iraq and not owned by the U.S. arts and crafts store.

### **GUIDED BY SEMITIC MUSEUM CURATOR, STUDENTS CREATE "DREAM STELA" REPLICA**

Between the paws of the six-story Great Sphinx in Giza, a slab of hieroglyphs tells the story of how King Thutmose IV dreamed his destiny.

The eight-foot Dream Stela was erected in 1401 B.C., 1,000 years after the Great Sphinx. Age has left the bottom third of the text unreadable.

Under the leadership of Harvard Semitic Museum

curator Adam Aja, students created a reproduction of the monument, following a cast that dates to the 1840s. The work is now on display on the museum's second floor. As an accompaniment, visitors can access an augmented-reality app that sheds light on the Sphinx throughout history.
